

A Unique Approach

The Banyan School Tutoring Center is unique because our tutors are certified special educators experienced in remediation for mainstream and special needs students.

Our goal is to help students integrate learning strategies into everyday life by encouraging them to approach new learning challenges with confidence, determination and independence.

Students with executive functioning disorders benefit from study skills taught through actual assigned classwork. Tutors communicate with classroom teachers to assess student progress and monitor skill application.

Banyan School Tutoring Center will empower students to believe in themselves and to develop the skills necessary to achieve success.

The Banyan School Tutoring Center is a place where children who are given personal attention can learn.

BANYAN
SCHOOL
Tutoring Center

A tutoring program developed by a well-recognized innovator and leader in educating children who learn differently.

BANYAN SCHOOL

Tutoring Center

With over 15 years of experience in educating students with learning differences, Banyan School is a new

choice for tutoring your child. Our tutors are our own faculty members who are certified in teaching students with learning disabilities.

Over 70% hold a master's degree in education. Our facility is conveniently located in our Fairfield school which has all the resources needed to help each student.

Each tutor is here because they love what they do. The atmosphere is positive, patient and encouraging. The approach is one on one and the success is tangible.

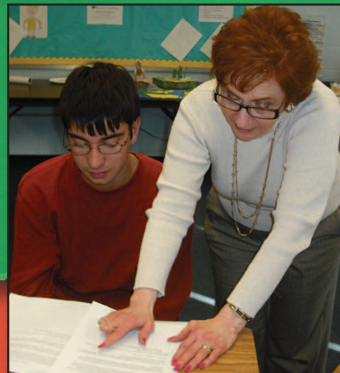

The Banyan School Tutoring Center offers support for elementary, middle and high school students who are struggling academically by providing strategies that can lead to greater academic success.

An initial evaluation identifies student strengths and weaknesses.

One-to-one sessions are tailored to meet the individual student's learning style.

Many students learn through tutoring what they are unable to absorb in a classroom.
