*Thursday, March 7 Home*

*Wednesday, March 13 Home*

*Wednesday, March 20 at Deron 9:30 am*

*Friday, March 29 All School game 1:10 pm*

## **MISS MITOFSKY'S CLASS NEWS**

In my period 1 reading class, we are moving along nicely in our chapter book, "Super Fast, Out of Control". The class is doing a great job applying the skills we have been learning. We have even been acting out various parts in the story, which was a lot of fun. In my period 5 reading class, we are almost halfway through "Hatchet". We are learning about different animals from the story and describing their characteristics. In periods 7 and 8 we are starting our descriptive pieces of writing. Each student has chosen a place they have visited or wish to visit and are describing it with vivid detail. The students are encouraged to use their five senses when describing their vacation spot. In math class, we are beginning to learn about two-step problems. We are reading the whole problem first, pulling out information, and are then able to decide what operation to use to solve the problem. On Fridays we continue to work with time. We are identifying time by the half hour and hour and are able to put the correct hands in the right spot. Stay tuned for some fun activities planned for Saturday school this weekend, March 6!

## MRS. MICHEL'S CLASS NEWS

During social studies classes, the students were having fun creating a diorama of the Battle of Gettysburg. While working in groups they researched the hills where the soldiers fought, identified the generals who were in charge, and identified different land forms that were important during the Battle of Gettysburg.

The students in science classes are creating a model of the rainforest. They are making animals from clay, and creating the different layers. All students are being creative while learning.

## MRS. SANSONE'S SCHOOL NEWS

**Attention all parents:** Please be sure to read the attached flyer for the Science and Reading Summer Fun Week, July 15-19, 2019. This is an exciting annual camp program, giving students extra social time along with added academic instruction. Please return the flyer to acknowledge you have received it. Thank you!
